

# 2009 Student Day

January 17<sup>th</sup> 9-1

Location to be announced

Here are the events we have planned for you...

## Question/Answer Panel

As a student or postgraduate – there are many choices that face us in our industry. Therefore, we have put together a group of professional MTs who will be able to give you their perspective and experience of working in the field today.

We will have representatives from AHDI, a national company, a hospital, a local company, a recruiting agency, an Education Director, and a recent graduate who has successfully transitioned to the working world. Bring your questions and a notepad – it will definitely be informative!

## Finding your First Job

Pat Stettler, Director of the Transcription Program at Everett Community College will be hosting a workshop on how to get your foot in the door and tips to finding your first job. For any postgraduate or any student nearing completion of their program – this is definitely one you don't want to miss!

## Suzi MT – Interviewing

If you haven't met Suzi MT, this is your chance! Suzi will be demonstrating her amazing skills at interviewing and preparing for your job hunt. It will definitely be entertaining!

It should be a very informative and fun day – we hope to see you there.
